

PIPEWORK GASKET BAORD TEST

Name		Group		Date	
Gasket Number	Information Required		Which Is It	Write the Answer	
1	What is the material the gasket is made from		Sheet Material Composite Material Metal Material		
2	What type of material is the gasket		Compressed Fibre P.T.F.E Graphite		
3	What is the temperature range of the gasket		Low Temperature Medium Temperature High Temperature		
4	What is the size of the gasket		6" 800 ASA 300 ASA 4" 150 ASA	2"	
5	What type of spiral wound gasket is it		S.W. S.S. CF S.W. C.S. PTFE S.W. S.S. GRAPHITE		
6	What is the temperature range of the gasket		Low Temperature Medium Temperature High Temperature		
7	How would you describe this	type	CAF Sleeved PTFE Sandwich PTFE Envelope		
8	How would you describe this	type	P.T.F.E Blank Gasket PTFE Full-face Gasket PTFE 2" 150 Gasket		
9	What service would you expect this gasket to be used on		Hot Water Compressed Air Corrosive Liquids		
10	What is the use of the inner solid-ring on this gasket		Locating Ring Blow-out Ring Compression Stop Ring		
11	What service would you expect this gasket to be used on		Acids Substances Alkaline Substances Corrosive Substances		
12	What type of spiral wound gasket is it		S.W. S.S. CF S.W. S.S. PTFE S.W. S.S. GRAPHITE		
13	What size of Nominal Bore pipe would this gasket be used on		2" N.B. 1-1/2" N.B. N.B.	1"	
14	What is the difference between gaskets 13 and 14		N.B. Size Gasket Style Flange Rating		
15	What is this type of gasket use for		Unevan Joint Faces Complicated or Narrow Joint Damaged Joint Faces		
16	What is this type of gasket use for		Unevan Joint Faces Complicated or Narrow Joint Damaged Joint Faces		
17	How would you describe the	use	Flat Face Flanges Spigot Flanges Raised Face Flanges		
18	What style of gasket is this		Metal Jacketed Gasket Metal Gasket R.T.J. Gasket
